Eclipses in 1846.

There will be two Eclipses this year, and both of the Sun.

I. On the 25th of April the Sun will be visibly eclipsed on the southern limb.

This Eclipse will be visible throughout the United States, excepting the North-western corner of the Oregon Territory; also throughout Mexico, Texas, West Indies, Great Britain, Ireland and Iceland: together with the southern part of Greenland, the northern part of South America, and the western parts of Europe and Africa.

II. There will be an Eclipse of the Sun on the 20th of October, at the time of New Moon in the morning, invisible in America, but visible through the greater part of Africa and of Australia.

PUBLISHERS OF THE MASSACHUSETTS REGISTER SINCE ITS COMMENCEMENT.

In 1767 published by Mein & Fleeming at the London Bookstore, north side of King-st. now State-st.

In 1774 published by Mills & Hicks, School-st. next door to Brackett's Tavern, sign of Cromwell's head.

In 1779 published by Thomas & John Fleet, sign of the Bible & Heart, corner of Cornhill and Water-streets.

In 1801 published by John West and Manning & Loring until 1813, when its publishers were West, Richardson & Lord and the present publisher who has been a proprietor for forty-five years past.

✂ Correspondents will please be particular in forwarding their communications for the Register before the 1st of December, if they wish them to be useful to the publisher. Those justices, &c. whose commissions have expired, or who have removed or died, they are respectfully requested to notice.

CENSUS OF THE TOWNS IN MASSACHUSETTS.

The figures in the first column is the date of Incorporation. The figures in the column of towns, show the number of Representatives to which each town is entitled, by the amendment of the Constitution. Those towns with a dash (-) before the number are entitled to one representative that number of years in the next ten years. The two last columns show the Census as taken by the United States for 1840, and the distance from Boston.

JOHN ENDICOTT,

FIRST GOVERNOR OF MASSACHUSETTS.

By Rev. JOSEPH B. FELT, Author of 'Annals of Salem.'

Had the Records of the Dorchester Company been preserved, they would very probably represent Endicott as Governor of the people on this soil. But as they are lost, we rest our argument on the period from the granting of the Royal Charter, 1628.

The Company's letter of April 17th, to Endicott, states that they shall forward to him a copy of such Charter. This, with their seal, was contained in a previous list of things, which they intended to send him. He received both, one as the basis of his administration, and the other as the documentary evidence of his constitutional authority.

On the 30th, the General Court of the Company voted, that the title of the Colonial Government should be "Governor and Council of London's Plantation in the Massachusetts Bay." They immediately chose Endicott for the Governor, and provided, that he should have a Council of twelve, one of whom should be elected Deputy Governor. They gave Mr. Endicott all the power which any of his immediate successors ever exercised.

May 7th, the Company agreed on the official oaths of Endicott, as Governor, and of the other authorities under him. On the 29th, a letter from Cradock to him is thus superscribed, "Captain Jo. Endicott, Esquire, Governor."

Other direct proof of the preceding kind, might be adduced. But what is offered seems sufficient to show that Endicott was the first Governor of Massachusetts under its Colonial Charter from the king. This position accords fully with the statements of Josselyn, Hutchinson and Prince. The writer does not recollect that it was ever doubted till within the present age.

A chief objection to such a position is founded on a passage from the Company's records of July 28, 1629, as follows: Resolved, "to transfer the government of the Plantation to those that shall inhabit there, and not continue the same in subordination to the Company here." From the plain connection of this extract, it could mean neither more nor less, than that the Colonial Governors, instead of being chosen by members of the Company who were in Old England, would be chosen by the members who were then or might be in New England. Change of place, for this purpose, could neither add to nor take from the essential attributes of Governorship.

But what does the term, subordination, mean? It means that instead of the Colonial Governors' being dependant on members of the Company convened in London, they should be alike dependant on such of them as would be assembled in Massachusetts.

No person was ever known to assert, that the ancient Governors of Virginia, Sagadahock, Newfoundland and New Netherlands; that all the Governors under our second Charter, and the Governors of British India, should not be classed with other Governors, simply because they were subordinate to or dependant on the election of authorities, far away from the territories over which they were appointed. While we justly grant, that such officials were proper Governors, according to the universal acceptation of the word, we cannot consistently grant less to Mr. Endicott. To make his case an exception to the general rule, would be contrary to the dictates of correct philology and sound reason.

ABSTRACT OF THE INSOLVENT LAW OF MASS. 1838.

1. The law provides that any debtor, whose debts amount to \$200, may apply to the judge of probate, or any master of chancery, setting forth his inability to pay his debts, and willingness to assign all his property for that purpose.

2. Upon such application, the judge is required to appoint a messenger to take possession of the debtor's estate, real and personal, except such as by law is exempted (see Revised Statutes) from attachment, and keep until assignees be appointed.

3. No property to be delivered until a meeting of the creditors to choose assignees.

4. The judge is to attend such meeting, and allow such claims as shall then be proved; the creditors to choose assignees, but if they are unable, by the judge.

5. The judge shall convey to the assignees all the estate of the debtor, except that exempted by law, with his deeds, books, and papers relating thereto. Attachments or assignments are void after the first publication of notice by the messenger.

6. The debtor is to make oath relating to the disposal of his estate, and all debts due him.

7. The debtor shall be allowed a sum for the support of himself and family, for two months, not exceeding the rate of three dollars per week for each member, as he may think proper.

8. Within three months another meeting of the creditors is to be held, and those who have not proved their claims, may do so. The debtor on making oath that he has delivered the messenger and assignees all his estate, of what kind soever, the judge, being satisfied, shall grant him a discharge.

9. But if one half in number or in value of the creditors, not less than \$50, shall object to his discharge, it shall not be granted, unless by the S. Judicial Court, on appeal.

10. Every debtor so discharged shall be allowed 5 per cent. on the net produce of all his estate, in case such net produce shall be sufficient to pay his creditors the amount of 50 per cent., not exceeding in the whole \$500.

11. When the debtor is either unable or unwilling to pay his just debts in full, he may be compelled to assign his property, if indebted to the amount of \$100 to one creditor.

MASSACHUSETTS MILITIA.

[Corrected at Office of Adjutant General, to November 1, 1845.]

The Militia of Massachusetts is divided into two classes, the Active and Enrolled—the latter consists of all “able bodied white male citizens, of the age of eighteen years, and under that of forty-five, excepting persons enlisted into volunteer companies, and persons exempted by law or incapacitated by physical and other causes.” (See Sec. 5, Militia Law.) The whole number enrolled in 1845, as appears from the Returns of the Assessors of cities and towns, (whose duty it is to make such returns,) is 84,470.

The Active Militia consists of Volunteers, who are paid a per diem allowance when on duty, (amounting, in the whole, to \$6 per annum, each man.) They consist by the Brigade Returns of 1845, of 6,335 men. These are organized into three Divisions, and six Brigades, embracing two Divisionary Corps of Cadets, one Troop of Cavalry, five Regiments, and three “annexed” Companies of Artillery—nine Regiments and four Battalions of Infantry.

GENERAL STAFF.

His Excellency, GEORGE N. BRIGGS, of Pittsfield,

The Convention of the Congregational Ministers in the Commonwealth of Massachusetts

Is a voluntary Association embracing all the Congregational Clergy of the Commonwealth, but vested with no particular authority or control over the Churches.

Their meeting is held in Boston, on the last Wednesday in May, annually, at five o'clock, P. M. and the following day. After transacting the usual business of the Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent Widows of Congregational clergymen.

The Officers of the Convention are—

Rev. N. Adams, of Boston, Scribe of the Convention.

Rev. Samuel K. Lothrop, of Boston, Treasurer.

Alvan Lamson, D. D. of Dedham, 1st Preacher.

Rev. Parsons Cooke, of Lynn, 2d Preacher.

For the purpose of investigating cases of necessity, and of application for the charity of the Convention, there are two standing Committees; a Central Committee, chosen centrally, and a Reporting Committee, whose members reside in different parts of the State. The Reporting Committee are required, each year, to investigate the circumstances of the objects of this charity, whether already on the list, or needing, or applying the first time for aid, and make a particular statement to the Central Committee, directed to the Scribe of the Convention, at least one week before the meeting of the Convention. Should any member neglect so to do for two successive years, his place in the Reporting Committee shall be vacated. The Central Committee receive from the members of the Reporting Committee applications and statements of facts in behalf of subjects of the charity of the Convention, and, having considered the same, are to judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the first day of their meeting, annually.

The statements of the members of the Reporting Committee are expected to contain answers to the following questions—

1. What is her age?
2. What are the number, the sex, the ages, and the circumstances of their children?

3. What is a fair estimate of her property?
4. What is her ability to help herself?
5. What connexions has she, who are bound to afford her assistance? And in what way do they assist her?
6. What is her income?
7. What peculiar circumstances render her an object of charity; or make it desirable that she should have aid this year?

CENTRAL COMMITTEE.

John Pierce, D. D. Charles Lowell, D. D. John Codman, D. D. Rev. George Putnam, Richard S. Storrs, D. D. with the Treasurer and Scribe.

LAKE SUPERIOR COPPER MINING COMPANIES.

THE copper region commences at Chocolate river, a little east of Copper Harbor, in Lake Superior, and extends along the southern shores of that lake some 350 miles to the British line, pursuing a north-westerly direction. The width is from 1 to 25 miles, according to the course of the ranges of trap-rock, the uniform concomitant of the ore. The ore appears in veins on the surface of the earth and in rocks on hill sides. These veins vary in width from 6 inches to sixteen feet. No shaft has as yet been sunk to a greater depth than 100 feet. The ores yield, on an average, about 25 per cent. of pure copper—the purest in the world. The mines of Cornwall, in England, yield only from 8 to 9 per cent.; those of Bohemia about 15.

The cost of getting ore to the surface, including smelting, is about \$6 per ton, one hand being able to get out about half a ton per day. Our government leases for nine years, in tracts of 1 mile square, at a rent of six per cent. of the ore for the first three years, and ten per cent. for the residue of the period, the tenant giving security for the due payment of the government share, and renewing the bond every three years. The total of all these stocks is about two millions and a half.

The Lake Superior, the Superior, and the Ontonagon Companies have found in their ores a quantity of silver yielding an additional profit greater than the copper itself.

CROTON WATER WORKS, FOR N. Y. CITY.

The minimum flow of water in the river where the dam is constructed is 27,000,000 gallons for every 24 hours, sufficient to supply 1,500,000 inhabitants. Velocity of water in the aqueduct is 1 1-2 miles an hour, where it is 2 feet deep. The Croton Dam is 250 feet long, 70 feet wide at bottom, 7 feet at top, and 40 feet high, built of stone. It creates a pond 5 miles long, 400 acres large, and contains 500,000,000 gallons. The aqueduct will cross Harlem river, a distance of 33 miles, on a bridge of stone, 1450 feet long, costing \$900,000.

The receiving reservoir is at 86th-st. 38 miles from the Croton Dam, covering 35 acres and containing 150 millions of gallons. The distributing reservoir, at 40th-st., 3 miles from City Hall, covers 4 acres, 43 feet high, 36 feet deep, and contains 20 millions of gallons. Whole distance from City Hall to the fountain reservoir at the Croton, 40 1-2 miles.

The first estimate of cost was 5 or 6 millions of dollars, but the actual cost is over 14 millions.

151 miles of iron pipe are laid in the City. There are 1400 fire and 600 free hydrants. The water was introduced into the City, Oct. 14, 1842. Croton water contains 5 grains of solid matter to the gallon. Schuylkill water (Phila.) contains 4 grains. The tax to defray the interest of the water debt is 20 cents on \$100, and the reduction of the rates of insurance is 40 cents on \$100. Whole revenue received for water is \$160,000 per annum, and the annual increase will be between 40 and \$50,000. The water is taken by 7,250 private dwellings, and 2,500 miscellaneous establishments.

GREAT FIRE IN NEW YORK CITY, JULY 19, 1845.

39 buildings were destroyed in Beaver-street; 34 in Broadway; 64 in Broad-street; 14 in Exchange-place; 10 in Marketfield-street; 37 in New-street; 15 in South William-street; and 4 in Stone-street. Total number destroyed, 217. Five other buildings were much damaged.

At this time, Jan. 1846, in Broad-st. nearly every lot is built on. On Broadway there are only 5 lots va-

cant, on New-st. 5 lots vacant, on Broad-st. and Stone-st. only 6 lots vacant. There are 200 stores finished or nearly so.

The total loss by the fire has been variously estimated at from six to eight millions of dollars. The fire commenced at about 3 o'clock, A. M., and was not subdued till 11 o'clock, A. M., a period of eight hours. Supposing, therefore, the total loss to have been six millions of dollars, the average loss per hour was \$750,000; the loss per quarter of an hour was \$187,500; the loss per minute was \$12,500; and the average loss per second was \$208,33.

At the great fire in New-York in 1835, the whole loss was \$17,116,000 — 530 buildings destroyed.

SMALL POX STATISTICS FOR BOSTON.

The Small Pox prevailed in Boston, in 1633 ; 1640 ; 1649 ; 1660 ; 1666 ; 1667 ; 1678 ; 1680 ; 1690 ; 1702, 313 deaths ; 1721, 844 deaths ; 1730, 488 deaths ; 1752, 545 deaths ; 1764, 124 deaths ; 1776, 1778, and 1792.

In 1721, Dr. Zabdiel Boylston, of Brookline, Mass. first introduced into this country inoculation with the small-pox virus. Inoculation was not practised in England until 1722, but had been long in practice in Turkey. In 1797, Dr. Waterhouse, of Cambridge, first practised vaccination for the kine-pox. Kine-pox vaccination was discovered in 1776, by Dr. Edward Jenner of England, but the practice was not introduced into London until 1796.

From 1702 to 1792 there were in Boston 16,230 cases of *natural* small-pox, 2,418 of whom died. From 1721 to 1792, 24,000 had the small-pox by *inoculation*, only 307 of whom died.

OLD FIRES IN BOSTON.

DR. HERSCHEL'S TABLE

*For Foretelling the Weather, through all the Lunations
of each Year, forever,—amended by*

DR. ADAM CLARKE.

This table and the accompanying remarks are the result of many years' actual observation ; the whole being constructed on a due consideration of the attraction of the sun and moon, in their several positions respecting the earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

Observations.—1. The nearer the time of the moon's change, first quarter, full and last quarter, are to *midnight*, the fairer will the weather be during the seven days following.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *mid-day* or *noon*, the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

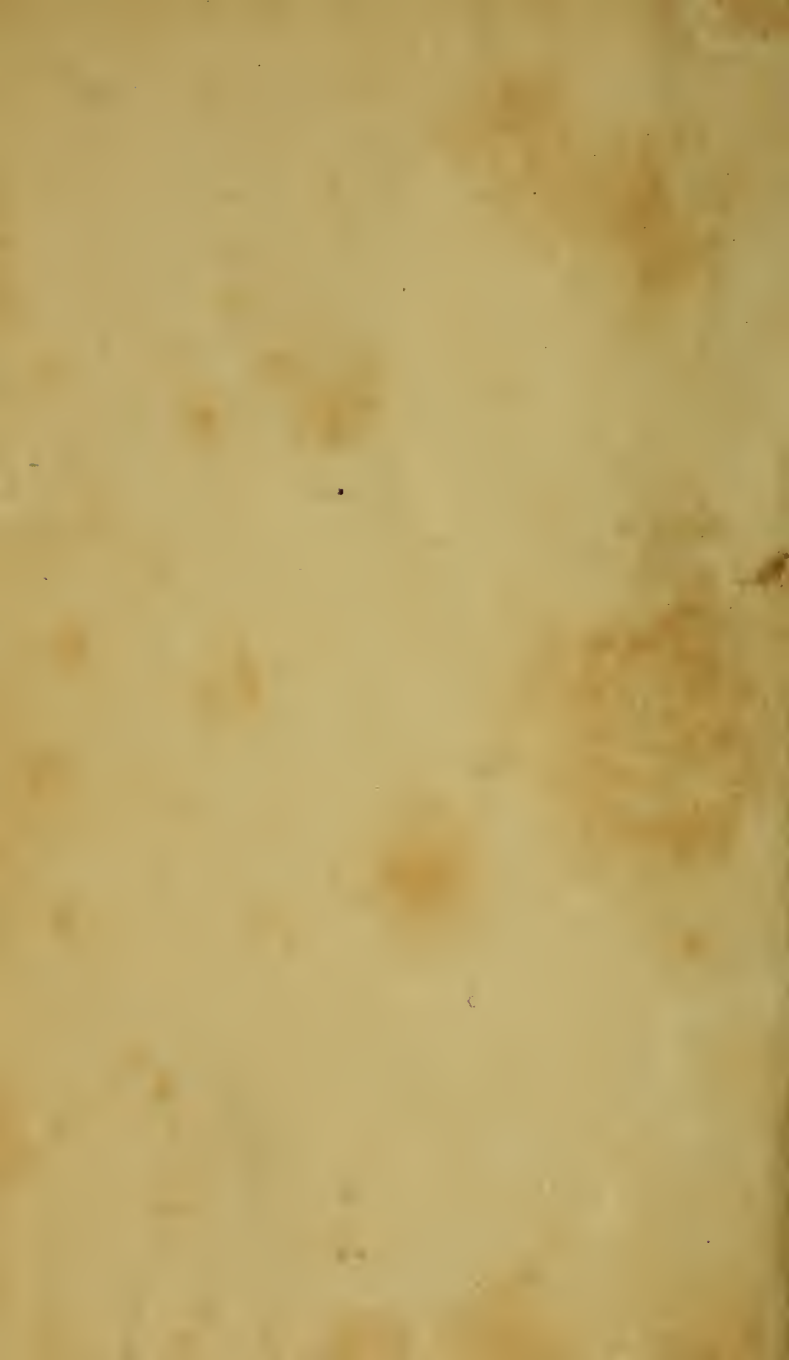

5. The moon's change, first quarter, full, and last quarter, happening during six of the afternoon hours, i. e. from four to ten, may be followed by fair weather ; but this is mostly dependent on the *wind*, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of autumn, the whole of winter, and the beginning of spring, yet, in the main, the above observations will apply to those periods also.

“ An evening red and morning gray,
Will set the traveller on his way ;
But an evening gray and a morning red,
Will pour down rain on a traveller's head.”
